

KIWO POLYCOL® LIGHT-SCRIBE

From the most respected name in Computer-to-Screen imaging, KIWO Inc. features their Computer-to-Screen (CTS) line of emulsions – KIWO POLYCOL® *LIGHT-SCRIBE*. KIWO's POLYCOL® *LIGHT-SCRIBE* line of emulsions offers three unique formulations:

KIWO POLYCOL® *LIGHT-SCRIBE* – The perfect choice for use with the CST and SignTronic imaging systems. This emulsion is very fast exposing with excellent resolution and great durability. POLYCOL® *LIGHT-SCRIBE* is UV, solvent, & water resistant.

KIWO POLYCOL® *LIGHT-SCRIBE ER* – Our *Easiest Reclaiming* POLYCOL® *LIGHT-SCRIBE* features very fast exposures and excellent resolution. POLYCOL® *LIGHT-SCRIBE ER* is a great choice for printers using automatic reclaiming equipment, as it leaves no latent haze in the screen after reclaiming. POLYCOL® *LIGHT-SCRIBE ER* is UV and solvent resistant.

KIWO POLYCOL® *LIGHT-SCRIBE HYBRID* – This unique SBQ / diazo hybrid formulation was developed for faster exposing CTS systems and provides the highest resolution and exposure latitude. POLYCOL® *LIGHT-SCRIBE HYBRID* offers a balance of speed, exposure latitude, resolution, and durability. POLYCOL® *LIGHT-SCRIBE HYBRID* is UV and solvent resistant.

Each of the KIWO POLYCOL® *LIGHT-SCRIBE* emulsions are available in 1 gallon, 5 gallon, and 55 gallon sizes. For samples or more information, please contact your authorized KIWO distributor or KIWO directly. KIWO, Inc. 1929 Marvin Circle, Seabrook, TX 77586.
