

# PREMIUM DTF INK

## PREMIUM DTF INK features:

- Made in North America
- 1 liter bottles
- Consistent particle size to resist clogging
- High Density White (requires recirculation) and Color ink
- Wide gamut color vibrancy using less Ink per print than other inks
- Epson head compatability (Please contact for full printer head compatibility)

## Application tips:

- White ink must be recirculated in the printer.
- Agitate all colors in sealed bottles before installing.
- Run printers daily if possible. This ensures ink is cycled through capping stations and dampers.
