

KIWO Product News

PRODUCT GROUPS:

Direct Emulsions

- Diazo
- Diazo-Photopolymer
- SBQ

Capillary Films

- Diazo
- Diazo-Photopolymer

Automatic Coating Machines

- KIWOMAT Basic
- KIWOMAT Pro
- KIWOMAT Simplex

Screen Cleaning Products

- Press Washes
- Ink Degradents
- Stencil Removers
- Haze Removers
- Mesh Preparations
- Brushes

Frame Adhesives

Screen Printable Pressure Sensitive Adhesives

- UV Curable
- Solvent Based
- Water Based

Specialty Adhesives

- Temporary Tattoo
- Pallet
- Flocking
- Blanket
- Heat Activated

Computer-To-Screen (CTS) Systems

- Direct UV Exposure
- Wax Ink Jet

Evaluation & Quality Control Tools

- Exposure Calculator
- Thickness Gauge
- Rz Meter
- Instructional Video CD

KIWO introduces KIWOCLEAN CONCENTRATED INK WASH to their CLEANLINE range of products

CLEANLINE – KIWO's complete line of screen cleaning products including: screen openers, ink washes, stencil removers, haze removers, and degreasers.

KIWOCLEAN – KIWO's special group of CLEANLINE screen cleaning products especially formulated for use in automatic screen cleaning equipment.

KIWOCLEAN CONCENTRATED INK WASH is very effective at removing plastisol, UV, and some solvent-based ink systems. It is more environmentally friendly than many other ink wash products because it can be diluted with water without reducing its effectiveness, which reduces packaging, shipping weight, transportation costs, and VOC levels.

This unique formulation also helps reduce ghost haze images often left in the screen when using automatic ink washout and reclaiming equipment, and it can be refreshed quickly in a settling tank.

KIWOCLEAN CONCENTRATED INK WASH is available in quarts, gallons, 5-gallon, and 55-gallon containers. Please ask your authorized KIWO distributor or KIWO directly for further information or samples.
