

KIWO Product News

PRODUCT GROUPS:

Direct Emulsions

- Diazo
- Diazo-Photopolymer
- SBQ

Capillary Films

- Diazo
- Diazo-Photopolymer

Stencil Hardeners

Stencil Bockouts

Automatic Coating Machines

- KIWOMAT Basic
- KIWOMAT Pro
- KIWOMAT Simplex

Screen Cleaning Products

- Press Washes
- Ink Degradants
- Stencil Removers
- Haze Removers
- Mesh Preparations
- Brushes

Frame Adhesives

Screen Printable Pressure Sensitive Adhesives

- UV Curable
- Solvent Based
- Water Based

Specialty Adhesives

- Temporary Tattoo
- Pallet
- Flocking
- Blanket
- Heat Activated

Computer-To-Screen (CTS) Systems

- Direct UV Exposure
- Wax Ink Jet

Evaluation & Quality Control Tools

- Exposure Calculator
- Thickness Gauge
- Rz Meter
- Instructional Video CD

Introducing KIWO's New MILD PRESS WASH

MILD PRESS WASH is a quick evaporating solvent mixture used for cleaning screens at the press when an ink change takes place or as a screen opener. It is designed to remove plastisol inks.

MILD PRESS WASH will not cause solvent "lock-in" of emulsions and reclaiming difficulties commonly associated with other screen openers when used on screens made with many SBQ emulsions commonly used by textile printers.

No oily residue after evaporation allows tape to be applied soon after use.

MILD PRESS WASH available in quarts, gallons, 5-gallon pails, and 55-gallon drums. For further details contact your authorized KIWO distributor or KIWO directly.
